

SNOWboy SP

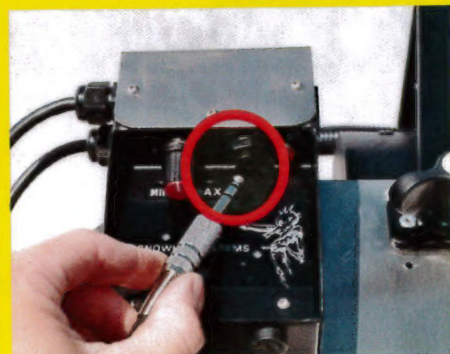

Operating Instructions

Attach 2.5 litre bottle of SNOWboy Snow Fluid into back of machine. For best results **insert dip tube into bottle before slotting into place**. Ensure cap is aligned correctly and screw down hand tight.

One 2.5 litre bottle of SNOWboy Fluid will last approximately 8 - 10 minutes if the machine is run continuously on a medium flake size setting - Speed Control adjustment can increase how long a bottle will last as well as reduce motor noise & flake projection

To use Remote Control:

- Plug **Remote Lead** into jack socket on side of **Remote**
- Ensure main power **toggle switch** is in the forward 'on'
- SNOWboy can now be operated by **remote control**

Set the desired **flake size** via the **Flake Size Control** on the front of the machine whilst it is running.

ENSURE THE MACHINE IS LEVEL FOR BEST RESULTS - NEVER POINT THE MACHINE DIRECTLY DOWNWARDS

To use the Waver Yoke to oscillate the machine:

- Remove **Thumb Screws** and replace **standard hanger bar** with **Waver**.
- Align holes and replace **thumb screws** to hand tight.
- Plug **Waver Power Lead** into side of **Remote Control Box**. Waver will operate when remote control is activated.

PLEASE ENSURE BOTTLE IS DISCONNECTED AND REMOVED FROM MACHINE BEFORE PACKING MACHINE INTO FLIGHT CASE

Technical Data

Voltage:	240 v.a.c.
Frequency:	50 Hz
Current:	5A
Model Number:	SNOWboy S P
Serial Number:	

This machine is designed to produce an artificial falling snow effect only, and is not to be used for any other purpose.

WE STRONGLY ADVISE THAT SNOWboy FLUID IS USED IN ALL OUR MACHINES AS OTHER FLUIDS WILL NOT WORK AND MAY DAMAGE THE MACHINE

CAUTION:

Snow may create a slipping hazard on polished floors and surfaces
If machine is to be suspended or located above the ground a suitable safety chain **MUST** be used (not supplied)

PLEASE NOTE:

All our machines are tested prior to despatch - however, in the unlikely event that you experience any problems that cannot be resolved using these instructions, it is important that you contact our office immediately on **+44 (0) 1780 752166** in order that we may resolve the matter for you.

WE REGRET THAT WE CANNOT MAKE ANY CONCESSIONS IF NOTICE OF FAULT OR SHORTAGES ARE MADE AFTER THE HIRE PERIOD

We hope that you enjoy your SNOWboy artificial snow machine
